ROSHAN CHAWAL

Email:chawalroshan@gmail.com | 9843863054

Linkden | Github | Portfolio

Full-stack software developer with hands-on experience building REST APIs and web applications using TypeScript, NestJS, Next.js, Prisma and PostgreSQL, plus earlier production experience in PHP and WordPress plugin development. Experienced in writing validation and error handling, optimizing queries, debugging production issues, and working in Git-based team workflows with code review. Comfortable using AI coding tools to speed up development while keeping code reviewed and tested.

Skills

- Programming Languages: TypeScript, JavaScript (ES6+), PHP, Python, SQL, HTML5, CSS3, JAVA
- Backend & APIs: Node.js, NestJS, Express, REST API design and integration, validation and error handling
- Frontend: React, Next.js, Redux, TanStack Query, TailwindCSS, Vite
- Databases & ORM: PostgreSQL, MongoDB, Prisma ORM
- Testing & Debugging: Jest (unit/integration testing), Chrome DevTools, Visual Studio Debugger
- Version Control & Workflow: Git, GitHub, GitLab, pnpm monorepos, code review, pull requests
- AI-Assisted Development: OpenCode, Hermes Agent, Claude
- Productivity Tools: Clickup, Slack

Experience

Full Stack Developer Internship (August 15 2025 - November 2024) Saptacode Technology

- Assisted in full-stack web development projects.
- Participated in debugging, testing, and deployment tasks.

Full Stack Developer (November 23 2025 - current) Saptacode Technology

- Develop and maintain production full-stack applications in a pnpm monorepo using Next.js, NestJS, Prisma and PostgreSQL.
- Build and integrate REST APIs with validation and error handling; optimize database queries and application logic.
- Investigate and fix production issues, including cache invalidation bugs.
- Collaborate with teams to deliver production-ready solutions.

PHP Backend Internship (June 2024 - Aug 2024) One Loop Studio |

● Developed REST API endpoints and learned frontend-backend communication.

● Contributed to team projects in a collaborative workflow.

React and PHP Developer (Sept 2024 – Dec 2024)

● Developed, maintained and optimized JavaScript and PHP code for the Gutenify WordPress product.

● Built new features and plugins including Advanced Login Customizer and OLS 2FA.

Projects

Amazing Nepal Adventures (ana.com.np) — Saptacode

● Travel and trekking platform built as a pnpm monorepo with Next.js, NestJS, Prisma, PostgreSQL, TanStack Query and Tailwind CSS.

Gorkha Danik — Nepali News Portal

● Implemented [article CRUD / category and search APIs / role-based admin access] with validation and error handling.

● Optimized article pages for SEO using server-side rendering and metadata.

Gutenify Plugins (PHP / WordPress)

● Advanced Login Customizer: dynamic data rendering and style customization using PHP**.**

● OLS CAPTCHA: improved data security and sanitization; developed a custom REST API endpoint.

Training & Certifications

Web Designing Training
Animax Animation Academy — [2018]

- Completed hands-on training in web design principles including HTML, CSS, and basic JavaScript.
- Gained experience in responsive design, layout techniques, and user interface (UI) design.

Education

● Bhaktapur Multiple Campus- BCA - Bachelor of Computer Applications
